Summary

Frontend developer specializing in React ecosystem with hands-on experience building responsive, scalable web applications from Figma designs. Experienced in state management (Redux Toolkit), API integration, routing architecture, and reusable component design.

Skills & Tools

● Frontend Core

React Js

Next Js

JavaScript (ES6+)

HTML5

CSS3/Sass

● State Management & Data

Redux Toolkit

Context API

REST API Integration

● Styling & UI

Tailwind CSS

Bootstrap

Responsive Design

● Routing & App Structure

React Router DOM

Protected Routes

● Development Tools

Git

GitHub

npm

Chrome DevTools

● Design Collaboration

Figma (developer handoff)

DEVELOPMENT PRACTICES

- Git branching and commit workflow
- Component reusability and clean structure
- API error & loading state handling
- Responsive-first development approach

Featured Project

Orebi E-commerce Frontend (React)

React Js

Tailwind CSS

Redux Toolkit

Axios

React Router DOM

Swiper Js

Built a scalable single-page ecommerce interface using component-based architecture.

More Challenges

- Developed reusable UI component system
- Manage global state with Redux Toolkit
- Set up React Router DOM for protected routes.
- Optimized carousel responsiveness across devices
- Built responsive layout following mobile-first approach
